TESTING OUT

I. The District encourages the diversity and quality in the curriculum to permit student choice of an educational program that reflects both depth and breadth of subject matter.

II. To this end, the testing out program provides an opportunity for students to pretest any course. Testing out will provide no course credit, but offers the student an opportunity to enroll in courses best suited for individual skill levels. The student transcript will note all courses waived by mastery testing.

III. The Superintendent will assure administrative guidelines are available to ensure appropriate procedures and implementation standards.
