

- **Introduction to Power Point 2007**

TJMS

Description: This hands-on session will include creating presentations using graphics, sound and motion text. It will show the user how to put a media presentation together.

Prerequisite: Basic computer word processing. **Participants need to bring a memory stick or purchase one from the district if they wish to take information worked on home. Cost of a memory stick from the district is \$7 and must be paid for at registration. No memory sticks will be sold at the class.**
