

- **Introduction to Publisher 2007**

TJMS

Description: Publisher is desktop publishing application software that gives users the power and flexibility to create impressive publications, posters, signs, etc. Emphasis will be on the creation of newsletters in this hands-on class. **Prerequisite:** Basic computer word processing skills. **Participants need to bring a memory stick or purchase one from the district if they wish to take information worked on home. Cost of a memory stick from the district is \$7 and must be paid for at registration. No memory sticks will be sold at the class.**
